

HOME SECURED FOR Y. W. C. A.

Temporary Quarters Are Rented in the Old Anderson House on Second East.

WILL BE OPENED BY MAY 1
PLANS BEING LAID FOR A BIG BUILDING.

A temporary home for the Y. W. C. A. will be established in the old "Doctor Anderson" property on Second East between Second and Third South streets. The home will be in full operation by May 1.

In connection with the work of the home an employment bureau for young women will be established at once. Methods of getting more funds looking toward the construction of a magnificent Y. W. C. A. building are now well under way.

Such was the announcement made last night at the meeting of the officers, advisory board and members of the association held in the rooms of the Manufacturers and Merchants' association last evening.

At last night's meeting Miss Eva Fleming, Mrs. E. B. Cichlow and Mrs. George R. Hancock were appointed as a committee to undertake the finding of a qualified secretary and matron for the home.

The old home will be remodeled to some extent. Further plans will be discussed at the regular meeting of the association next Saturday.

SIGNED BY THE GOVERNOR

First of the New York Insurance Bills Now the Law of the State.

Albany, N. Y., April 2.—The first of the ten bills proposed by the special investigating committee as the result of its investigation of life insurance conditions is now a law. Governor Higgins this afternoon affixed his signature to the bill which postponed until Nov. 15 the annual elections of the New York Life, Mutual Life of New York, Mutual Reserve of New York and Security Mutual of New York, the four purely mutual life insurance companies incorporated under the laws of this state. It does not affect the Equitable Life Assurance society, which is a stock company. In signing the bill the governor issued a memorandum sharply criticizing the directors whom he thus legislated from office.

One of the most important effects of the act is that it invalidates every proxy hitherto secured, whether by the companies themselves, by Thomas W. Lawson of Boston or any one else.

ANNOUNCEMENT.

While the Salt Lake Route, Utah's most popular route, is temporarily in an embarrassing position, as its through trains are concerned, travel being washed out in the state of Nevada for a certain distance, yet the public is asked to bear in mind that the company is still operating the finest local train service in the state of Utah.

Three trains daily between Salt Lake and Nephi.
Six trains daily between Salt Lake and Garfield Beach.
Two trains daily between Salt Lake and Tintic mining district.
The midnight train runs through to Comancha, Nev., returning, thereby taking care of our patrons in Pioche and southern Utah.

Please bear these facts in mind and give your local patronage to the Salt Lake Route.
P. S. If you are figuring on a California trip, remember that this company has a \$30 round trip rate to Los Angeles in April, and it will pay you to see our agents before concluding arrangements for your tour.

Sixty Years' Experience of an Old Nurse.

Mrs. Winslow's Soothing Syrup is the prescription of the best female physicians and nurses in the United States, and has been used for sixty years with never-failing success, by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child of bowel pain, cures diarrhea, griping in the bowels and wind colic. By giving health to the child it rests the mother. Price 75 cents a bottle.

TO THE TOURIST.

Go anywhere you please if you must, but do not fail to call at the Rismarck first, for a fine German lunch and a glass of imported Bavarian or Pilsener beer. No. 30 West 2nd South.

PRESIDENT WHITE ON HIS WAY TO UTAH

(Special to The Herald.)
Boston, Mass., April 2.—President E. L. White of the Montana Coal & Coke and Bingham Consolidated companies left for Salt Lake this afternoon, for an inspection of the Bingham properties. He will then visit the Balaclava mines in California to meet the engineers of the property and go over the plans for the proposed smelter. From there he will go to Butte to look over the coke and other properties in that district. He will be gone several weeks.

CHEAP RATES TO MEXICO.

Daily after February 15th until April 7th, the Colorado Midland will sell tickets Salt Lake to City of Mexico and points north thereof for \$14.00. For information and literature call Ticket Office, 77 West Second South, Salt Lake.

Dr. Broadbent's Dental office moved from Eagle block to 500-501 Scott building, 168 Main, Over King's hardware store.

APRIL CONFERENCE—SANPETE, ATTENTION.

Wait for announcement of Sanpete Valley trains. The Pioneer line, J. H. Hornung, G. A. Mantl.

EVERY LITTLE BIT HELPS.

Use the Salt Lake Route to Tintic, Sanpete and all Utah county points; most convenient trains. Ticket office, 168 South Main street. Phones 1352.

CHARGED HER WITH MURDER

Grand Jury at Stockton Returns Indictment Against Mrs. Ledoux.

Stockton, Cal., April 2.—The grand jury today indicted Mrs. Ledoux for murder, charging her with the death of A. N. McVicar in this city on the 24th of March. Twenty-one witnesses were examined before the jury and the matter was rushed through, the indictment being returned after office hours in the court house.

Today a visit was made to the prisoner by J. C. McVicar, a brother of the deceased, who arrived here a few days ago from Colorado, and ex-Judge A. N. Sullivan of Plattsmouth, Neb., who is an uncle of the McVicar and who came here to assist in the prosecution if he is allowed to do so. Attorney McNoble, who represents the woman, is indignant at the action of the sheriff in allowing the interview and characterizes it as an unfair means to trap the woman into damaging admissions while facing the brother and uncle of the dead man.

The woman never knew the two men who called on her today and she talked with them fully half an hour, but it is said she did not make her case in the least. She asked them to withhold their condemnation of her case until it was presented to a jury. Both McVicar and Sullivan were witnesses at the grand jury today. They are the only persons who have been permitted to see the prisoner in jail, save the prosecuting officers and her attorneys and mother.

PARTNERS FOR THE GIRLS

German Kaiser Sends Regiment of Hussars in Response to Request.

Crefeld, Germany, April 2.—When Emperor Wilhelm visited Crefeld in 1903 a group of girls complained to him that they had no dancing partners and begged him to send a regiment of cavalry here. The emperor promised to do so, and today a regiment of Hussars arrived here from Dusseldorf, and with it came the emperor, who had decided to take part in the regiment's reception. The young women of the city enthusiastically acclaimed the soldiers and handed the staff officers heaps of floral offerings for his majesty. The latter, replying to the mayor's speech of welcome, said:

"I have kept my word. Today I have given the town its garrison and the young ladies their partners."

The emperor's remarks were greeted with cheers.
The city, which is the center of the silk and velvet industry, was gallantly decorated for the occasion, a mile of the principal streets being hung with decorations of velvet and silk.
Since the emperor made his promise to the young women at Crefeld in 1903, the reichstag appropriated the sum of money necessary to erect a permanent barracks here, which have been completed and the accommodation of a regiment of cavalry.

GRAND RUSH TO NEW CAMP

Gold Find 25 Miles East of Las Vegas Has Caused a Big Stampede.

(Special to The Herald.)

Las Vegas, Nev., April 2.—James Brown returned today from the new gold field twenty-five miles east of Las Vegas, claiming to have made great showings. He pronounces this new find as more promising than the early discoveries of Goldfield and Ballisro and prophesies a future for this will equal the best discoveries of Nevada. This opinion is concurred in by every practical mining expert and old timer of Nevada who has visited the find. The mineralization is extensive. The formation is porphyry, diorite. The veins are fissures. There are many of these, all giving good values. The principal discovery is that of the Catlin brothers, giving a return of surface from \$480 to \$2,400 per ton. This rich outcrop is traceable for 150 feet. Vegas is almost depopulated. The rush from outside is overwhelming.

SUTHERLAND TRYING TO RAISE THE LIMIT

(Special to The Herald.)
Washington, April 2.—Senator Sutherland has received a report from the supervising architect upon his bill to add \$150,000 to the cost limit of the Ogden public building. The report states that adequate facilities can be secured by an additional appropriation of \$120,000 to the present appropriation, which is \$200,000. Sutherland will try to secure this amount by amendment to the omnibus public building bill when it comes from the house.

HAS REACHED THE TOP.

(Special to The Herald.)
Washington, April 2.—Upon motion of Solicitor General Hoyt Attorney Charles E. Marks of Utah today was admitted to practice in the supreme court of the United States.

STRIKE ORDER IN FULL FORCE

Complete Suspension of Mining Operations in the Pennsylvania Anthracite Region.

NO SIGNS OF BITTERNESS
TRUCE MAY BE PATCHED UP IN NEW YORK.

Philadelphia, April 2.—There was a complete suspension of mining operations in the anthracite region today in accordance with the order issued last week by President Mitchell of the Mine Workers of America and the scale committee of that organization with the solitary exception of the Oxford colliery, a small independent operation near Scranton, which employs about 500 hands with a daily capacity of about 1,200 tons. This mine was kept in operation during the strike in 1902. Every colliery was opened as usual and in readiness for the workers, but there was no response to the blowing of the whistles other than the appearance of the engineers, firemen, pumpmen and others whose presence at the mines is necessary to preserve them from injury and who were exempted in President Mitchell's order.

No Bitterness Apparent.

The action of the miners occasioned no surprise on the part of the operators, who, while they offered work and protection to any who might desire to go into the mines, did not anticipate the acceptance of their offer. The best of feeling between operators and miners is reported from all sections and the hope that a satisfactory agreement may be reached after the strike in New York tomorrow is expressed on both sides.

Significance is attached by the miners to the fact that there is no apparent attempt on the part of the operators to import non-union labor, which they regard as a favorable sign. The miners' leaders are careful to assert that no strike has been declared, the suspension, they claim, being merely a business necessity as the miners have no agreement with the operators until the scale is adjusted by the committee.

Pickets Not Needed.

During the day in several of the districts groups of men picketed the approaches to the collieries, but their presence was unnecessary. In the vicinity of Scranton most of the washeries were operated today, and it is said that they will be worked in various sections. The washeries produce only steam sizes from coal already run through the breaker and screened, and it is not likely that there will be any opposition from the miners to the operation of these washeries, as their production is considered by them insignificant.

There are 400 collieries in the anthracite region, employing 160,000 men and boys. Miners' officials tonight estimated that 142,000 men were employed. The order to suspend operations. This leaves 17,000 men who are permitted to continue at work to prevent the closing of the mines today occurred at Moosles, a small town near Scranton, where John S. Shepperd, a civil engineer at the Pennsylvania Coal company, was shot in the hip by Anthony Coplosk, a mine worker. Coplosk had an argument with a mine guard, during which he shot at the latter. The bullet went wide and struck Shepperd, who was standing near by.

CONFERENCE IN NEW YORK.

Bare Possibility That an Agreement May Be Reached.

New York, April 2.—The eve of the second meeting of the committee representing the anthracite mine workers and their employers ends the situation, so far as the hard coal fields are concerned, unchanged from that disclosed in the communications that have passed between the contending forces, which have been made public. Neither miner nor operator tonight could venture a prediction as to the outcome. Both sides are hopeful, however, and there is a feeling among those vitally interested in the struggle that some way out of the difficulty will be found.

President Mitchell arrived here tonight from Indianapolis and established headquarters at the Ashland house. He was accompanied by a secretary and Thomas Hargerty of the Central Pennsylvania district of the Miners' union, who is a member of the international executive board. Others who arrived tonight were Presidents Nicholls, Fahney and Dettrey, and Secretaries Dempsey, Gallagher and Hartlein, all of the anthracite fields. There was the expectation of Mr. Mitchell to call the district presidents and secretaries tonight for a last conference prior to meeting with the operators, but it was decided to delay the conference until tomorrow morning. None of the district leaders would be quoted as to the situation as shown by the first day's suspension, but they all admitted privately that the utmost harmony prevails in the region, and that rumors that thousands of men would not obey the suspension order have proved groundless.

Soft Coal Miners Win.

President Mitchell appeared in a cheerful mood when speaking to regarding the bituminous situation. He said everything in the soft coal fields is working out to the satisfaction of himself and the miners on that territory. He said that more than 100,000 soft coal miners had already been granted the 1903 scale, and predicted that by the end of the week fully 80 per cent of the bituminous workers will have been given the 5.55 advance in wages. He thought that within forty-five days every soft coal mine where the men are organized will be working on a union basis.

OUTLOOK IS PROMISING.

Majority of the Operators Will Sign 1903 Scale.

Columbus, O., April 2.—Notwithstanding the expressed determination of the majority of the Ohio coal operators not to grant an advance in wages to their miners, the prospects of averting a protracted strike in the Ohio fields seem decidedly more hopeful tonight. The Ohio Mine Workers' association, which is organized to leave little doubt as to the course that will be pursued by the executive board of the Ohio Mine Workers' association, met tonight to determine the policy of the miners in this state with reference to the signing of contracts. President Green of the Ohio Mine Workers' organization, who opposed the Perry resolution at the national convention, announced the signing of contracts with any operators who agree to pay the 1903 scale, said today that he would waive his personal views and conform his action to the spirit of the Perry resolution. The policy to be pursued by the Ohio miners rests entirely with their executive board, and President Green's attitude will have great weight in shaping its decision.

HOSTETTER'S STOMACH BITTERS

You'll never regret making the change to this famous remedy. It cures Poor Appetite, Spring Fever, Headache, Impure Blood, Dyspepsia, Indigestion, Colds, Gripes or Malarial Fever. Our Private Stamp is over neck.

THREE FACTS For Sick Women To Consider

First.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful periods, displacements of the female organs, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

Second.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, inflammation of the female organs, weakness and displacements, regulating the periods perfectly and overcoming their pains. It has also proved itself invaluable in preparing women for childbirth and the change of life.

Third.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge. Outfit the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

WILL RESUME WORK TODAY.

Big Companies in Bituminous District Sign the Scale.

Pittsburg, April 2.—There will be no strike of the bituminous miners in the Pittsburg district and, according to Francis L. Robbins, of the Pittsburg Coal company, there will be a general resumption of work tomorrow morning following the holiday celebration of the eight-hour day. Mr. Robbins officially announced tonight that he had signed the scale of 1903, and among the other signers were the Monongahela River Consolidated Coal and Coke company, the Ellsworth Coal company, the Crescent Coal company, the Milfin Coal company, the People's Coal company, the Marine Coal company, the Seaside Coal company, the Vesta Coal company, the Dilworth Coal company and the Mansfield Coal and Coke company. The companies represented thirty million tons, or over three-quarters of the coal mined in the Pittsburg district.

Scale Signed by Miners.

The scale was signed for the miners by William Dadds, Frank Feehan, F. P. Hannaway and William Little, the committee appointed by the district convention. While the operators and the miners' committees were in session today it was reported that Patrick Dolan would raise the question of the validity of the scale, and that as a measure of precaution Mr. Robbins would sign two scales identical in their provisions. Mr. Robbins said tonight that but one scale would be signed by anyone, and that was the one signed today, presented by the committee, which the operators recognized, as an officially appointed committee.

Independents Shut Down.

The mines of the independent operators will be shut down tomorrow in the Pittsburg district in conjunction with those in Ohio, Indiana and Illinois. The independent operators met in this city tonight and at 10:30 p.m. journeled after passing a resolution to support the operators of the forenamed states in refusing to sign the scale. The independent operators announced that their mines would not be operated tomorrow under any consideration and that under no circumstances would the mines be run as non-union plants. In other districts, however, where western Pennsylvania the situation was about as pacific as that in the Pittsburg district. Beaver county operators tonight signed the scale.

Will Sign Today.

The indications from the Clearfield district were that when the miners meet the operators in joint conference tomorrow the scale would be signed. While the West Virginia fields were less agitated over the movement than any other state in the soft coal region, the miners were apparently disinterested. They will, however, in this field receive the advance.

At Johnstown, where trouble was looked for because of the holiday, the demonstration that had been planned by the miners was carried out without a clash. While the men there have been granted the advance, there is now a holding out for the recognition of the union by the operators. However, announced tonight that their mines would be working tomorrow and that all their men would return.
